Jerusalem.Thro' Agricultural Officer, Tel-Aviv. *AK*

Sir,

I have the honour to refer to your letter No. AG/2/41/C dated 18th March, 1943, and most respectfully beg to state that the reason for my application for a personal interview with your good-self was to kindly request you to point out to me the mistakes prompting the stoppage of my annual increment, the moral effect of which is great, so as to enable me to avoid falling in the same trouble once more.

I further beg to state that I am doing my best to perform my duties to your satisfaction so as to gain your favour and I am confident that the day is well nigh in which you will know my real personality.

I have the honour to be,

Sir,

Your obedient servant,

In reply to your letter
No. AT/1 of the 17th March, 1943,
you have had ample opportunity
to explain yourself in writing
and I have carefully considered
reports on your work and conduct
from various sources. In the
circumstances I do not consider
that any useful purpose would
be served by the grant to you of
an interview.

I am to inform you that the explanations contained in your letter No. AT/1 dated 8th October, 1943, are under consideration and that a further communication on this subject will be made to you in due course. 9th February, 1943.

CONFIDENTIAL.

Personal Assistant,
Dept. of Agriculture
and Fisheries,

Subject:- Mr. S. Al Sharif.

Ref:- Your AG/2/41/C of 5.2.43.

Having perused file No. 2/41/C enclosed in your confidential cover under reference, I beg to make the following observations:-

- 1) I can do no better than enclose herewith copy of my confidential letter AG/14/5 of 21.8.42 relating to the subject and which should clear up a number of the questions asked by you.
- 2) I was duly notified at the time of the earlier valuations and assessments which appeared reasonable and therefore not questioned. But later when the revised figures were submitted by the Agricultural Inspector, Tulkam, showing a considerable reduction in both areas and yields of wheat and barley, these were questioned. It must be noted that no monthly valuations and assessments had been submitted to the District Officer by the Agricultural Inspector during the months of May, June and July and the revised figures were not submitted until after the harvest.
- 3) The amended assessments of wheat and barley were obviously wrong because they showed a considerable reduction on the earlier figures submitted and were about half of the area and production of a normal year. The yield of dura was also reduced, but the areas and yields of the other crops were not changed. It is obvious that the reduction in the case of wheat, barley was due to the fact that these were to be controlled by Government and no free market was to be allowed; but this with the exception of dura did not apply to the other crops at the time.
- 4) Having fully considered the answers to heads (1) and (2) on folio 12, I do not consider them in the least satisfactory. I have already expressed my dissatisfaction with the work of Mr. S. Al Sharif on a number of occasions. I cannot recall receiving from this Officer any report or reply to urgent correspondence without a marked delay and only after repeated reminders and phone messages. I have also heard on strong rumours throwing doubt on this officer's integrity and honesty, but, of course, I have not been able to prove or disprove these rumours.

File is returned herewith.

CONFIDENTIAL.REGISTERED.A.O. Tel Aviv.
-----

I am directed to enclose file No. 2/41/C of Mr. S. Al Sharif for your perusal and observations. In particular, will you kindly take note of heads (1) and (2) of folio 15 and the corresponding explanations in folio 17. These explanations are very slight and the lines of argument not at all easy to follow in the absence of a direct working knowledge of the procedure. I seem to recall, ~~for example~~, discussing this matter with you some time ago although I may be mistaken. The points, however, which are roughly noted at folio 15a are :-

- (1) whether you were notified of the valuations, assessments, and changes therein; and
- (2) why assessments for wheat and barley were wrong while other crops appear to have been right.

2. You will notice in the final paragraph of folio 12 that the possibility of drastic action is under contemplation and you should now set out your opinion, supported fully by reasons, whether the answers to heads (1) and (2) are reasonably satisfactory or not. I am not mentioning head (3) since presumably it is a matter which would not come directly to your knowledge, but there is no objection to your making observations if you should so desire.

Having completed my third year as Agricultural Inspector, Tulkarm S/D, I have found it all along very hard for me to be stationed in this district distant from my father who lives at Majdal and who is over 80 years of age and whom I have to see and assist often. If it is at all possible, I beg to request to be transferred to Gaza where I am sure I will be able to perform my duties in a better way than hitherto, as I will have no family worries and I am well acquainted with the agricultural conditions of the Gaza - Majdal areas.

I hope that my request will meet with your kind consideration.
